TCCP believes that bringing together the technology community unleashes unimaginable capacity for our region to thrive and delivers on our mission by offering a variety of programs, events and services that connect technologists from diverse industries, backgrounds and experiences with opportunities to learn, collaborate and innovate AND raise the profile of the technology community throughout the Central Pennsylvania region and beyond.

In doing so, the following five priorities guide all our programming and partnerships:

**Recruit & Retain Diverse Talent:** Does this program and / or partnership help employers recruit and retain diverse tech talent with a special focus on currently underrepresented groups within the Central PA tech community?

**Stay Sharp with Peers:** Does this program and / or partnership offer timely lifelong learning opportunities that will help tech producers and tech users stay connected to the latest trends, issues and innovations within an industry that is continuously changing?

**Grow the Business:** Does this program and / or partnership create opportunities that assist members with the cultivation of new business leads, improve business and hiring practices and raise their profile thereby improving their bottom line.

**Promote the Region:** Does this program and / or partnership help TCCP play a leading role in the promotion of the tech innovations and opportunities that exist throughout the region.

The programs and events outlined in our 2026 TCCP Sponsorship Guide provide interested companies with an opportunity to align their brand with the TCCP mission, values and priorities while also supporting the growth of the technology community throughout Central Pennsylvania.
